Source: U.S. Bureau of the Census. Census 2000.

Explanations: ¹The 2000 Census was the first time that respondents were given the option of selecting one or more race categories to indicate their racial identities. For this reason, the Census 2000 data on race are not directly comparable with data from the 1990 Census or earlier Censuses.

²The federal government considers race and Hispanic origin to be two separate and distinct concepts. Persons of Hispanic origin can be of any race.

<i>Percent Employed</i>	58.8%
Population 65 Years and over	17
<i>With a disability</i>	11

Source: U.S. Bureau of the Census, Census 2000.

Explanation: Data represents the civilian noninstitutionalized population 5 years and over. The U.S. Census defines disability as a long-lasting physical, mental, or emotional condition. This condition can make it difficult for a person to do activities such as walking, climbing stairs, dressing, bathing, learning, or remembering. This condition can also impede a person from being able to go outside the home alone or to work at a job or business.
